Targeted Behaviors and Consequences

Write the behaviors and consequences you are targeting. Choose a few specific behaviors that you hope to have kids stop doing (and only when positive practices are not working!) Don't try to correct them all at once! Everyone can be more successful if you start with just a few specific behaviors.

Behavior	Severity	Consequence
	☐ Minor ☐ Medium ☐ Major

Warning Cue: As a family, decide on a simple warning cue. It can be a single word or phrase, like "you MUST …" The word MUST is the warning cue in this example. If a parent asks a child to do something (or stop doing something) the first request should be a polite "Child, will you please … ?" After a reasonable time to respond has passed, then the parent can use the warning cue "Child, you MUST…"

Right now, agree upon a warning cue, and write it down for the family to remember.
